may not match yarn exactly.

Tension

32 sts and 40 rows to 10 cm (stocking st)
on 3 mm needles or size needed to achieve
stated tension.

It is important to check your tension
before starting your garment. If there are
too many stitches to 10 cm, your tension
is tight and you should change to a larger
size needle. If there are too few, your
tension is loose and you should change to
a smaller size needle.

Caution

It is essential to work to the stated tension,
and we cannot accept responsibility for the
finished product if any yarn other than the
specified yarn is used.
